

```
// THIS IS THE PREFERRED SOLUTION
public int sortaSum(int a, int b) {
    int sum = a + b; // get the SUM!
    if (10 <= sum && sum <= 19) {
        return 20;
    }
    else {
        return sum;
    }
}

public int sortaSum(int a, int b) {
    if (10 <= a + b && a + b <= 19) {
        return 20;
    }
    else {
        return a + b;
    }
}
```
