

```
public int[] makeMiddle(int[] nums) {  
    int[] a = new int[2];  
    int mid = nums.length / 2;  
    a[0] = nums[mid-1];  
    a[1] = nums[mid];  
    return a;  
}
```

```
public int[] makeMiddle(int[] nums) {  
    int mid = nums.length / 2;  
    int[] a = { nums[mid-1], nums[mid] };  
    return a;  
}
```
