```java
public boolean more14(int[] nums) {
  int num1 = 0;
  int num4 = 0;
  for (int n : nums) {
    if (1 == n) {
      num1++;
    }
    else if (4 == n) {
      num4++;
    }
  }
  return num1 > num4;
}
```
