

```
public boolean specialEleven(int n) {
    if (n % 11 == 0) {
        return true;
    }
    else if (n % 11 == 1) {
        return true;
    }
    else {
        return false;
    }
}
```

```
public boolean specialEleven(int n) {
    if (n % 11 == 0 || n % 11 == 1) {
        return true;
    }
    else {
        return false;
    }
}
```

```
public boolean specialEleven(int n) {
    return n % 11 == 0 || n % 11 == 1;
}
```
