

```
public int teaParty(int tea, int candy) {
    if (tea < 5 || candy < 5) {
        return 0;
    }
    else if (tea >= candy * 2 || candy >= tea * 2) {
        return 2;
    }
    else {
        return 1;
    }
}
```
